# OVERTIME

Welcome to Overtime. First and foremost, if you're unfamiliar with Overtime's predecessor, a free LP that I released in January 2008 called Spare Time, download it and check it out. There's a link on my blogspot page and my Myspace. Anyway, this project features some bonuses, extended / alternate mixes, and a few extras that we were unable to fit onto Spare Time. Like I said before, these are joints I'm willing to part with for now, some are new, but most are older tracks. I hope you like what you hear and you check for my upcoming projects. If you're a fan of Y Society or Panacea, expect some new releases in the NEAR future. Y Society's 2nd single, "What's Next" b/w "At my Own Pace" & "Peace I'm out the Door (instro)" will be released before summer's end. Panacea's remix LP "The Re-Route" featuring production from DJ Spinna, DJ Numark, Nicolay, Thes One and myself will be dropping in the next couple of months as well. Check the new blog at

wonkabeats.blogspot.com and sign up for the email list... Make sure you're connected! There's so much in the works so updates and new music will be frequently available. On a personal note, I took a few months off to promote and rest, but I just started making beats again and I'm ecstatic about what I've been creating. I'm back with more records, more floppies and more beats. Oh, in case you were wondering why I slowed down on the youtube videos; I broke my camera in NYC last April. Finally, to all the fans, all the blogs, forums, and people who gave me a listen and supported my music: thank you, I appreciate your support. I enjoy making music, and hopefully that's the impression I've given thus far.
